# VS code
extensions
& theme
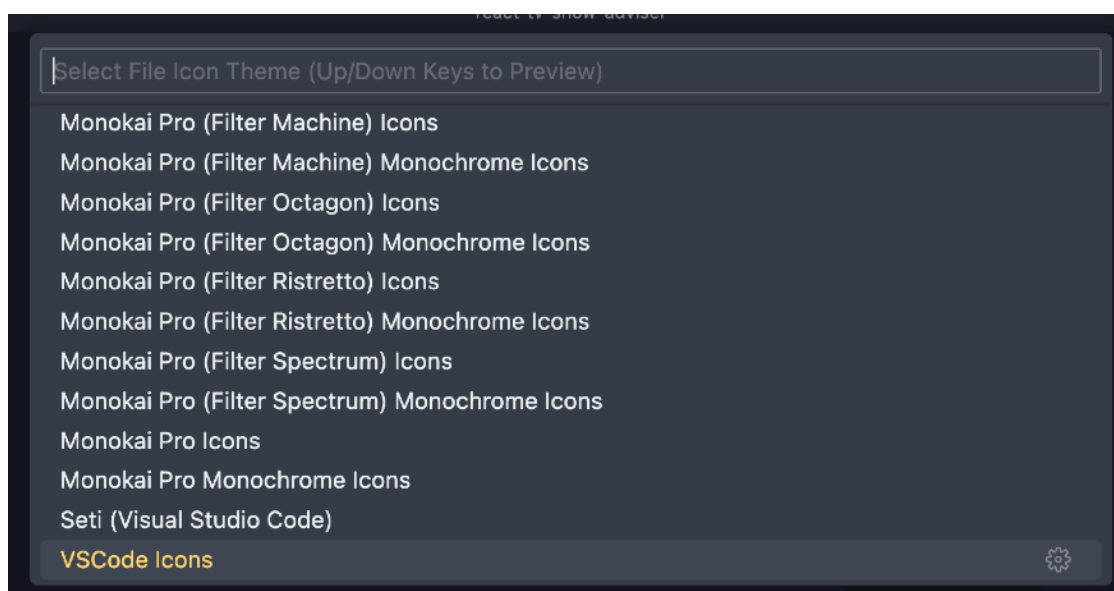

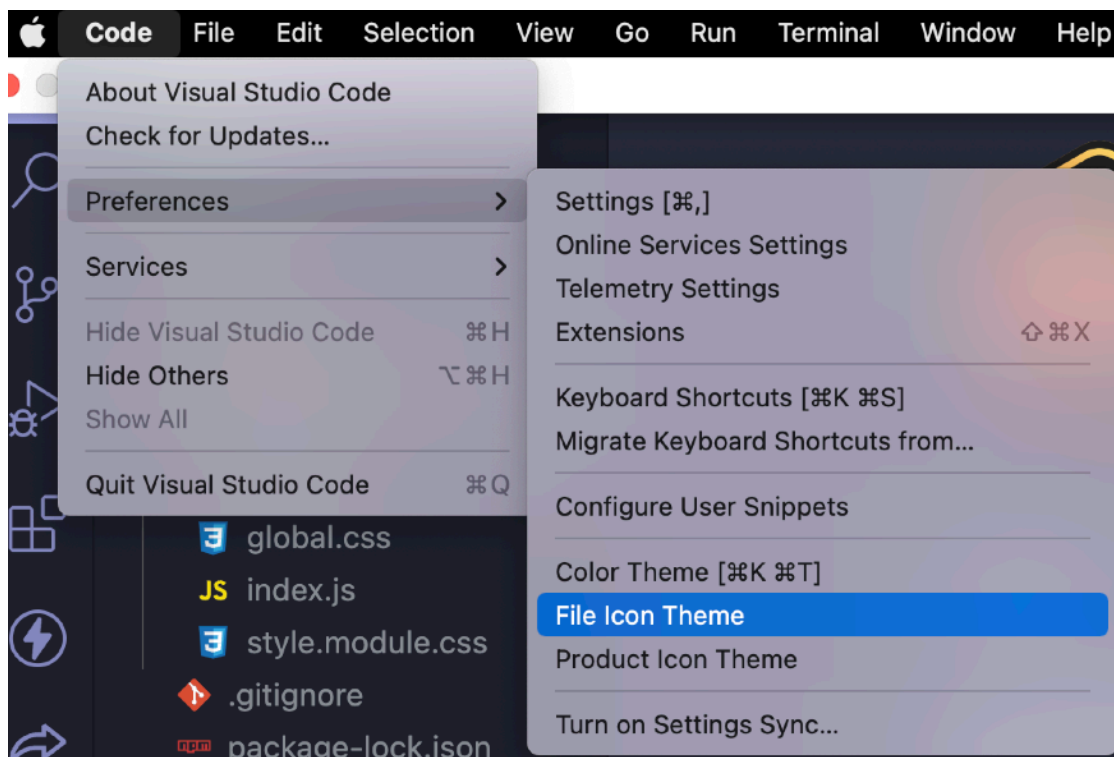

File explorer with icons

1 - Install the vscode-icons extension

 https://marketplace.visualstudio.com/items?itemName=vscode-icons-team.vscode-icons

2 - Enable vscode-icons in preference and select vscodeIcons

vscode-icons

Theme

I use Monokaï pro, but just know that it sends a popup asking you to buy the pro version regularly.

Installation :

https://marketplace.visualstudio.com/items?itemName=monokai.theme-monokai-pro-vscode

Configuration file

I did a bit of customization for the cursor style , the fonts etc … You can copy my whole configuration.

Type command+shift+P on **MAC** or CTRL + P on **windows**
Search for "**user settings (json)**"

Here is my settings.json, you can copy it if you want the exact same config as I have

```
{
 //TERMINAL
 "terminal.integrated.fontSize": 18,
 //EDITOR
 "editor.formatOnSave": true,
 "editor.codeActionsOnSave": {
